DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR § 1.114, including the fee set forth in 37 CFR § 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR § 1.114, and the fee set forth in 37 CFR § 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR § 1.114. Applicant's submission filed on 9 August 2007 has been entered.

Election/Restrictions

2. The restriction requirement as set forth in the Office action mailed 11 December 2002 is herein withdrawn as directed to the pending claims. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. § 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01. The examiner had required restriction between product and process claims. Where applicant elects claims directed to the product, and a product claim is subsequently found allowable, withdrawn process claims that depend from or otherwise include all the limitations of the allowable product claim will be rejoined in accordance with the provisions of MPEP § 821.04. **Process claims that depend from or otherwise include all the limitations of the patentable product** will be entered as a matter of right if the amendment is presented prior to final rejection or allowance, whichever is earlier. Amendments submitted after final rejection are governed by 37 CFR § 1.116; amendments submitted after allowance are governed by 37 CFR § 1.312.

Art Unit: 1638

See "Guidance on Treatment of Product and Process Claims in light of *In re Ochiai*, *In re Brouwer* and 35 U.S.C. § 103(b)," 1184 O.G. 86 (March 26, 1996).

Status of the Application

3. Those rejections not specifically addressed in this Office action are withdrawn in view of Applicant's arguments and amendments (9 August 2007).
4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Objections

5. Claims 85-95 and 102-112 are objected to because of the following informalities:
The phrase "A process" should read -- The process -- in referring to a previously claimed process. Appropriate correction is required.

Double Patenting

6. Claim 62 remains rejected and claims 63, 69, 71, 72, 82 and 85-112 are rejected under the judicially created doctrine of double patenting over claims 11 and 17 of U. S. Patent No. 6,943,280 B2. This rejection is repeated for the reason of record as set forth in the last Office action mailed 9 April 2007. Applicant's arguments filed 9 August 2007 are noted but a rejection cannot be held in abeyance (see pages 10-11 of the Remarks).
